From May 2009 – June 2010, \$1 per student grants teachers and students unlimited access to games, benchmarks, practice activities, and more... all designed to IMPROVE students' written language usage performance. Our standards align with the Maryland VSC language usage guidelines for grades 4 through 10.

The first games released cover verb tenses, noun types, plurals, possessives, pronoun case, number, and person; indefinite pronouns and their verb and antecedent agreement, editing, and much more. We will continue to release games into next year, but your subscription rate remains the same until the end of the 2010 school year when the BETA term ends.

All games are leveled for difficulty; students succeed when they have mastered the concepts being reviewed. Watch students progress at their own pace and have FUN while learning usage skills. Interactive instruction IMPROVES learning!

Order by June '09 for the introductory rate of \$1 per student. This rate will last until June 2010 and provides unlimited access to all programs offered on the GrammarActive portal. Registration is limited to the first 50 schools to submit Purchase Orders.
