

Activity

Comparison Adjectives

COMPARING WITH ADJECTIVES

Directions: Place magnetic adjectives on a desk in the front of the room, and ask a student to come up, pick any three adjectives, and place them in their appropriate columns. If correct they receive a raffle ticket, if not, and another student spots the error, he or she may take over.

Note: If the adjective is irregular or absolute place outside the boxes for credit.

Relay races are also a fun way to test your knowledge. The team with the most correctly placed cards, wins!

_____ + ER

_____ Y = I + ER

MORE + _____
